“For years, my fans have been asking which games were my favorite, and now I finally have a place where they can experience it for themselves,” says Christopher. “The new Brian Christopher Slots at the Plaza is like having my own miniature casino. I hand selected the games that represent everything I love about playing slot machines. They’re exciting, enticing, fun, and, if you’re lucky, profitable!”

“Social media has transformed the casino experience, and we are very excited to partner with Brian on this unique space that I know our guests will enjoy,” said Jonathan Jossel, CEO of the Plaza Hotel & Casino.

In addition, Christopher is known for giving away “lucky wristbands” to fans who find him in a casino. Gamblers previously had to be in the right place at the right time to get this souvenir, which many believe bring them luck. Now for the first-time ever, players in the Brian Christopher Slots at the Plaza area will have the opportunity to receive an exclusive keepsake wristband with Christopher’s signature for earning just 100 points on their [Plaza Rewards](#) player’s card, while supplies last.

“This is another step forward for the BC brand,” says Christopher. “We’ve always been a forward-thinking company and we’re very thankful that the Plaza is too. I can’t wait to get in there and start playing those games. It’s my own personal playground that I may never leave, though I’m willing to share!”

Brian Christopher Slots is the most watched influencer for slot machine and casino videos with over 302 million views to date and 528,000 followers, adding 5 million views each week.
